SUMMARY

Started writing production code at 15. Six years later, I build full-stack applications end to end — React, React Native, and Next.js on the frontend, Node.js and Express on the backend. I've shipped across startups, product companies, and personal projects. Currently at Ruby Labs while finishing a CS degree on a full scholarship.

EXPERIENCE

Software Developer — [Ruby Labs](#) zendocs.com Oct 2024 – Present | Remote

Building and maintaining production Next.js web applications inside a global, distributed product team. Collaborating across design, backend, and product on large-scale consumer-facing products.

Full-Stack Developer — [sTickets](#) stickets.ge Sep 2023 – Jun 2024

Built an end-to-end ticketing platform using Next.js on the frontend and Express.js on the backend. Owned database schema, REST API design, and the responsive UI from start to finish.

Full-Stack Developer — [Sakhlamde](#) Feb 2024 – Aug 2024

Designed and built a real-estate platform for buying, selling, and renting properties. Next.js for both frontend and backend (API routes); Supabase as the database layer.

Front-End Developer — [Artron](#) Mar 2023 – Dec 2023

Built React-based admin panels for gym management — dashboards, member tracking, and billing UI.

Front-End Developer — [OnStream](#) Feb 2022 – Jun 2022

Developed an Angular admin UI for a television network's movie scheduling and playback platform.

React Developer — [Burq](#) burqup.com Mar 2021 – May 2021

Contributed to the customer-facing React web app for a goods-delivery startup.

Software Developer — [4Twiggers](#) *first job, age 15* Aug 2019 – Sep 2021

Built *Pravis Testebi*, a React Native app for driver's license exam simulation.
Built *Realremote*, a React Native app for remote-job listings.
Created D3.js data visualizations for the Slotstats analytics product.
